

Baking Soda/Shaving Cream Clouds

Adapted from <https://teachingmama.org/how-to-make-your-own-snow/>

Here's what you need:

- 1 can of shaving cream
- 2 boxes of baking soda
- large container

To make the snow, mix baking soda with shaving cream. I just mixed with my hands until I got a good consistency

And do you know what goes well with baking soda?? Vinegar! Yep, that's right...we sprayed vinegar all over the homemade snow! The boys were SO excited to see it fizz.
