

Letter Tree Trunks

You will need: paper towel tubes, alphabet stickers, a marker

Collect paper towel tubes. You will need at least one for each child.

In advance, print the alphabet randomly on the tube.

Print some in upper case and some in lower case.

I would make specific tubes upper case and others all lower case.

Mixing them up may be too frustrating for many preschoolers and they will not complete this activity. 26 letters is a lot!

Give each child a sheet of letter stickers that have only one sticker of each letter.

They then stick the sticker onto the matching letter on the tube!
